

## Safety Data Sheet according to Reg. (EC) 1907/2006

**Product name:** Mangosmör  
**Updated:** 28. September 2020  
**Version:** e  
**Date of issue:** 28. September 2020  
**Previous version:** d

### Section 1: Identification of the substance and of the company

#### 1.1 Product identifier:

**Mangosmör / Art No. 3040**

#### 1.2 Relevant identified uses of the substance and uses advised against Sector of use

Food, Cosmetic

#### 1.3 Supplier

|                | <b>Street</b>     | <b>City</b>    | <b>Country</b> |
|----------------|-------------------|----------------|----------------|
| Naturkosmos AB | Ullevi Enestorp 3 | 594 91 Gamleby | Sweden         |

#### Telephone

+46 (0)493 53999

**E-mail address of person responsible for this SDS:** E-Mail: [info@naturkosmos.se](mailto:info@naturkosmos.se)

#### 1.4 Emergency telephone number Sweden

112

### Section 2: Hazards identification

#### 2.1 Classification of the substance

**REACH Status:** Exempted from compulsory Regulation according to Annex II No. 9 of Commission Regulation (EC) No. 987/2008 amending Regulation (EC) No 1907/2006 of REACH as regards Annexes IV and V.

**Classification according to Regulation (EC) 1272/2008:** Not classified.

**Classification according to Directive 67/548/EWG:** Not classified.

#### 2.2 Label elements

**Signal word:** No signal word.

**Hazard statements:** No known significant effects or critical hazards.

#### 2.3 Other hazards:

No.

### Section 3: Composition

#### 3.1 Substance

Triglycerides of different fatty acids.

**CAS-No.:** 90063-86-8

**EINECS-No.:** 290-045-4

**INCI-Name:** Mangifera Indica Seed Butter

## Safety Data Sheet according to Reg. (EC) 1907/2006

**Product name:** Mangosmör  
**Updated:** 28. September 2020  
**Version:** e  
**Date of issue:** 28. September 2020  
**Previous version:** d

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

### Section 4: First aid measures

#### 4.1 Description of first aid measures

**Ingestion:** Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.  
**Inhalation:** Fresh air. Get medical attention if symptoms occur.  
**Skin contact:** Flush contaminated skin with plenty of water, wash with soap and rise thoroughly. Remove contaminated clothing and shoes.  
**Eye contact:** Immediately flush eyes with plenty of water. Check for and remove any contact lenses. Get medical attention if irritation occurs.

#### 4.2 Most important symptoms and effects, both acute and delayed Potential acute health effects

**Ingestion:** No known significant effects or critical hazards.  
**Inhalation:** No known significant effects or critical hazards.  
**Skin contact:** No known significant effects or critical hazards.  
**Eye contact:** No known significant effects or critical hazards.

#### Over-exposure signs

**Ingestion:** No specific data.  
**Inhalation:** No specific data.  
**Skin contact:** No specific data.  
**Eye contact:** No specific data.

#### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician:** No specific data.

**Specific treatment:** No specific treatment.

### Section 5: Firefighting measures

#### 5.1 Extinguishing media

**Suitable extinguishing media:** Foam, dry chemical powder, carbon dioxide, sand or earth.

**Unsuitable extinguishing media:** Water with full jet.

#### 5.2 Special hazards arising from the substance

Avoid contact with oxidising agents. Combustion products: smoke, CO, CO<sub>2</sub>.  
At high temperatures acrolein may be formed.

#### 5.3 Advice for firefighters

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire.

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus with a full face-piece operated in positive pressure mode. Clothing for fire-fighters conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

## Safety Data Sheet according to Reg. (EC) 1907/2006

**Product name:** Mangosmör  
**Updated:** 28. September 2020  
**Version:** e  
**Date of issue:** 28. September 2020  
**Previous version:** d

### Section 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

The usual precautions for handling chemicals should be observed. Do not touch or walk through split material. Put on appropriate personal protective equipment.

**6.2 Environmental precautions:** Avoid dispersal of split material and runoff and contact with soil, waterways, drains and sewers.

#### 6.3 Methods and materials for containment and cleaning up

**Small spill:** Stop leak if without risk. Move container from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

**Large spill:** Stop leak if without risk. Move container from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillage into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via licensed waste disposal contractor.

### Section 7: Handling and storage

#### 7.1 Precautions for safe handling

##### Advice on general occupational hygiene

The usual precautions for handling chemicals should be observed. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.

#### 7.2 Conditions for safe storage

Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

### Section 8: Exposure controls/personal protection

#### 8.1 Control parameters

Not applicable.

#### 8.2 Exposure controls

##### Individual protection measures

**Hygiene measures:** Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing.

**Eye protection:** safety eyewear.

## Safety Data Sheet according to Reg. (EC) 1907/2006

**Product name:** Mangosmör  
**Updated:** 28. September 2020 **Date of issue:** 28. September 2020  
**Version:** e **Previous version:** d

**Body protection:** Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Hand protection:** Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. >8 hours (breakthrough time): neoprene, nitrile, Viton®.

**Skin protection:** Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection:** Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Recommended: organic vapour filter.

**Environmental exposure controls:** Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

### Section 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

**Physical state:** semi-solid fat  
**Colour:** white to yellow  
**Odour:** slight characteristic

|                                      |          | <u>value / area</u> | <u>Unit</u> |
|--------------------------------------|----------|---------------------|-------------|
| <b>Melting point/freezing point:</b> |          | 27 – 35             | °C          |
| <b>Boiling point:</b>                |          | < 300               | °C          |
| <b>Flash point:</b>                  | open cup | > 250               | °C          |
| <b>Ignition point:</b>               |          | > 300               | °C          |

**Explosive properties:** unknown

**Danger of Explosion:** product does not present an explosion hazard

**Density:** at 20 °C approx. 0,90 – 0,93 g/cm<sup>3</sup>  
**Viscosity:** at 37°C 40 – 50 mPas

**Solubility in water:** not miscible

#### 9.2 Other information

No additional information.

## Safety Data Sheet according to Reg. (EC) 1907/2006

**Product name:** Mangosmör  
**Updated:** 28. September 2020  
**Version:** e

**Date of issue:** 28. September 2020  
**Previous version:** d

### Section 10: Stability and reactivity

- 10.1 Reactivity:** No specific test data related to reactivity available for this product or its ingredients.
- 10.2 Chemical stability:** The product is stable.
- 10.3 Possibility of hazardous reactions:** Under normal conditions of storage and use, hazardous reactions will not occur.
- 10.4 Conditions to avoid:** No specific data.
- 10.5 Incompatible materials:** see section 7. Avoid contact with oxidising agents.
- 10.6. Hazardous decomposition products:** smoke and irritating vapours when heated to decomposition. At very high temperatures acrolein may be formed.

### Section 11: Toxicological information

#### 11.1 Information on toxicological effects

Not toxic.

**Conclusion:** Not available.  
**Irritation/Corrosion:** No irritating effect.  
**Sensitization:** Not available.  
**Carcinogenicity:** No further relevant information available.

**Specific target organ toxicity (single exposure):** Not available.  
**Specific target organ toxicity (repeated exposure):** Not available.

Not classified as hazardous conform EEC Dangerous Substance Directive and Dangerous Preparation Directives. If the product is used properly it will not cause any injuries to health.

### Section 12: Ecological information

#### 12.1 Toxicity

No data available.

#### 12.2 Persistence and degradability

Product is biodegradable.

#### 12.3 Bioaccumulative potential

Does not accumulate in organisms.

#### 12.4 Mobility in soil

No data available.

#### 12.5 Results of PBT and vPvB assessment

PBT: No.

## Safety Data Sheet according to Reg. (EC) 1907/2006

**Product name:** Mangosmör  
**Updated:** 28. September 2020  
**Version:** e  
**Date of issue:** 28. September 2020  
**Previous version:** d

vPvB: No.

**12.6 Other adverse effects:** No known significant effects or critical hazards.

### Section 13: Disposal considerations

#### 13.1 Waste treatment methods

##### Product:

##### Methods of disposal:

Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

##### Packaging:

The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

EU-disposal code: 13 08 99 oil waste. Classification of waste is in end user's individual authority.

### Section 14: Transport information

No hazardous goods according UN, IMO, ADR/RID und IATA/ICAO.

### Section 15: Regulatory information

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance

Not classified as dangerous according to CLP Regulation (EC) No. 1272/2008.

Not classified as dangerous according to Directive 67/548/EC or Directive 1999/45/EC.

**REACH Status:** Exempted from compulsory Regulation according to Annex II No. 9 of Commission Regulation (EC) No. 987/2008 amending Regulation (EC) No 1907/2006 of REACH as regards Annexes IV and V.

#### National regulation

**Wassergefährdungsklasse** (Germany): nicht wassergefährdend im Sinne des § 19g Abs. 5 WHG. (Einstufung nach VwVwS vom 17. Mai 1999, Nummer 1.2 a) in Verbindung mit Anhang 1)

**15.2 Chemical Safety Assessment:** complete.

### Section 16: Other information

To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein.
